

Terberg Kinglifter UK offer customisable trailer and truck-mounted forklift hire packages

With a reputation for customer focus and quality service, Terberg Kinglifter UK is offering Kinglifter and trailer hire packages. By understanding their customers' needs a range of customisable packages are available to suit various requirements.

Ideal for logistics companies who need extra support during busy periods, without the full financial commitment of investing in new trailers and truck-mounted forklift, the Kinglifter and trailer hire features a 44' curtain-sided trailer that comes with a fitting kit, counterweight and your choice of Kinglifter which is infinitely customisable to suit different haulage needs.

Customers can choose any model of Terberg Kinglifter truck mounted forklift for their trailer hire package, including the all- new E-TKL fully electric forklift with onboard charging. The package options cover; short-term hire, long-term hire or outright purchase packages which includes curtains with the customers livery and a Kinglifter with the customers colours and branding. The final package available is the trial hire package, which is ideal for logistics companies that currently use tail lift but may be interested in the truck-mounted forklift industry.
